## Umc lubbock patient portal

It helped us achieve meaningful use and now MIPS. When we need to send clinical information to our patients, it keeps HIPPA compatible and facilitates filing requests (phone volume removal). The ProsThe Patient portal is an extremely useful tool for patients, doctors and staff. We have also contributed to meaningful use & now mips meeting. Patients can ask the nurse replacements, ask staff general questions and more. We may send clinical notes and laboratory reports automatically or on demand and hipaa compliant. We can also use our application and even emergency office closure updates to send email bursts to our patients. It works hand in hand with our EMR system. It's a great tool.
