Enjoy the best actions in various campaign events to fight for the right currencies. Enter the ring as stars to rule alliance leaders. Take out various challenges to conquer special Quests.So, grab a piece of cake and join us for the celebration! The best game I've ever played in it and the first person I've had was my favorite Wrestler AJ STYLE I have some characters, but it's amazing, I had some fun I haven't even played for two months but other games no more forgot about the super card masters I'm a professional in this game I hope that Zack Ryder and cm punk soon I'm only 8 and I've never go crazy just part of it I don't like it I love this game until i pretty much almost forgot about breakfast when it's an amazing game I keep waiting for more updates and i should add more titles and stars i can't even stop playing one time i fell asleep playing it's sorry it's so long it's just this game is so awesome that guys need more games like it is like all the stars, but free me fun and addictive I would like to give my heart to play it thank you very much for putting this game in my WWE life and actually went to RAW before when I went I felt so happy with my brother and dad thank you very much for that. The game I hope you like this bye report is not back to my #1 favorite game called WWE MAYEM played for five months and was great and the game was challenging because the game modes were fun and playable and felt expired to unlock every star-level edition of each wrestler with all the loot cases, but since the update in May. The game is basically getting boring and deteriorating every update now because we are no longer able to collect all the wrestlers from the loot cases at star level now most of the roster that have been in the game since the beginning are removed, it is easier to get threefive star level edits now. Finally, most game modes are unplayable because Endless Tower only gives you a wrestler at two star level, fighting the star 2-5, the levels in the event and the other modes are unbalanced because the two star levels have the same level, even the Alliance have five levels and we can no longer collect all superstars level stars, but if you had five levels, so each star level edition each wrestler do have to have a common level and one star will matter to play again so we can collect each star level edition of each wrestler in the men's and women's division of Stone Cold Steve Austin Rock, Brock Lesnar, Ember Moon game will be enjoyable again just as much in Alliance mode to complete each level three times at this level in this mode, so everyone on the Alliance must play Since completing them ten times is impossible, we can only play three or four times a day in three years Hello, we really appreciate the detailed feedback and make sure to pass the same to our teams. Our teams are constantly working to improve the game with each of our updates, and your feedback helps! The game was great, but now it will be a long slow grind that frankly is not worth it. The main problem with this game is that you will regret the time you invest in. Developers are just bad. They don't really listen to their community or fix tickets. They release new top-level superstars every 4 months, and these stars are stuck in loot, which is very difficult to unlock. Even if you pay for loot, guess what you have a 1% chance of unlocking one of these rare superstars. Like any loot most games are not sustainable. They say it's 1%, but in some cases, such as cases of top-level stars that unlock the same characters as 3 times, even if you think you have the same chance to unlock all the top-level stars. And guess the one you unlock 3 times are the same weak low-level characters. Game updates sometimes lack a schedule, so the main events of the wwe are missing, and now they took a pop offer that gave the opportunity to update the characters without grinding for months. WWE is a great universe, but this game is constantly disappointed, after this new change, I'm ready. There is a mode that they have promoted for a year and they have not been releasing either. When it does, I wouldn't be shocked that it's dead to hype. Save yourself some time and stay away from this game.
